

## Sub menus definitions

- Service Details. (we have created an alone file for this)
- Booking Management.

Alpen Getaway is the only company in the booking market that can let their customers edit their already booked ride online on our website without contacting our customer service. Upon completion of booking with us, a customer receives an auto generated booking/Reference number. After you edit the form (manage my booking), all the changes take place automatically and you don't need to inform us.

In this section you can manage (edit or cancel) your booking through your received booking/reference number. Here you can edit the booking that you have already booked with us.

Customers can change the following options in (manage my booking) form.

- **Pick & Drop Locations:** you can change only the exact pick & Drop place but if you want to change your main pick & drop location then you have to click (on request) button, one of our team members will fulfill your request.
- **Date, time & Flight number:** you can change all three in booking form directly.
- **Vehicles Change:** here you can add/remove passengers up to your selected car capacity for free, you can change in extras (child seats, ski equipment, luggage) free of costs, but if you want to change the vehicle then you have to click (on request) button.
- **In route changes:** If you want to add multiple stops in your ride then you have to click (on request) button.
- **Payment Options:** you can change the payment option from on board payment to online payment option (pay now) button.
